

Romeo and Juliet Social Media Project

For each scene of Romeo and Juliet we read, you will be responsible for creating a social media mini-project for one or more of the characters.

You may choose any project from the options below for each scene. You will be provided with one template for each project, but will be responsible for printing any additional templates from the school website.

Options:

Mixtape: Create a playlist/mixtape for one of the characters based on their experiences in the scene. The playlist must include **8 songs of your choice** (from any era) with at least 1 sentence explaining the song choice.

Snapchat: Create a snapchat story or conversation for one/two of the characters based on their experiences in the scene. You must draw and add captions on **4 phone screens** and add a written explanation (1 sentence) for each snap.

Text: Imagine a text conversation between two or more of the characters in the act. There must be at least **5 texts per screen**. Explain your choices (annotation style) in the margins.

Instagram: Create **6 instagram posts** for a character from the act we read. Add captions and hashtags if necessary. Provide an explanation (1 sentence) for each post.

Twitter: Create a twitter feed for one of the characters. You may include tweets from other characters that your character retweeted as well. You must have at least **8 tweets total** for your character. Each tweet must be at least 2 full sentences long.

Your Choice: If you can come up with a different social media platform project on your own, that would be awesome! Just make sure you clear it with me first.

Some ideas: Pinterest board, dating profile, tumblr, blog, comic strip, etc.
