## **High School Guidance - First-Time First-Year Students**

The CSU system and CSU campuses are prepared to continue exercising flexibility and accommodation when working with our educational partners and Fall 2021 and Fall 2022 applicants in meeting admission requirements and the subsequent steps toward matriculation.

### **Fall 2022 Prospective First-Time First-Year Students (Current High School Seniors)**

1. The CSU strongly recommends that ALL students enroll in a yearlong senior-year English course and a mathematics/quantitative reasoning course as student-specific Early Assessment Program (EAP) guidance may not be available at the time of senior year course registration.
2. The California State University (CSU) will continue to temporarily suspend the use of ACT/SAT examinations in determining admission eligibility for all CSU campuses for the 2022-2023 academic year.
3. First-time freshmen must meet the following eligibility requirements: be a high school graduate or equivalent; complete the 15-unit comprehensive "a-g" pattern of college preparatory course; and earn a qualifying "a-g" grade point average (GPA) as described below.
  - California residents and graduates of California high schools will be eligible for admission by earning a 2.50 or greater "a-g" GPA.
  - Any California high school graduate or resident of California earning a GPA between 2.00 and 2.49 may be evaluated for admission based upon supplemental factors such as number of courses exceeding minimum "a-g" requirements, household income, extracurricular involvement, and other available information that would inform the campus admission decision.
4. This temporary change of admission requirements will also apply to impacted CSU campuses and programs. Campuses and programs designated as impacted may utilize higher "a-g" GPA thresholds for applicants, as well as identify supplemental criteria and their relative weights, in making admission decisions. However, in no case will standardized test scores be utilized in making admissions decisions for applicants during the 2022-2023 academic year.
5. The CSU will continue to honor Advanced Placement exams on which scores of 3, 4, or 5 are earned, regardless of the delivery mode of the exam.
